EXPERIENCE

Salesforce Developer   Jan 2023 - Present
Cognizant

- Developed Apex Triggers, Workflows, and Flows to automate around 20 business processes which improved the overall org efficiency by 40% as per client.
- Designed Lightning Web Components and Visualforce pages to address key business requirements, resulting in improved user experience which increased platform utilization by 25%.
- Orchestrated 7 REST integrations and 3 RESTful web services to connect Salesforce with external systems and ERPs, ensuring smooth data flow which improved the integration performance by 30%.
- Optimized Apex Classes and Triggers by improving code coverages upto 98%, and streamlined deployment processes using Copado.
- Managed Identity and Access Management for Sales Cloud and Service Cloud with Field Service Lightning through SSO, ensuring seamless user access control and security across the platform.

Java Full-Stack Intern   Feb 2022 - Jul 2022
Cognizant – Apprenticeship

- Implemented full-stack web development using Spring Boot Framework and Core Java (including multithreading and Java 8 features), enhancing application performance and maintainability.
- Designed and developed an end-to-end "Tourism Management" application, enabling user registration for tours and improving user engagement through seamless functionality.

Senior Coding Instructor   Feb 2021 - Jan 2022
Codingal – Part-Time

- Mentored 30+ high school students in foundational programming concepts using Java and Python, and introduced web development fundamentals with HTML, CSS, Bootstrap, and JavaScript, fostering hands-on coding skills.
